PRC-Saltillo Accessibility Conformance Report Revised Section 508 Edition Via Nano

(Based on VPAT® Version 2.5)

Name of Product/Version: Via Nano

Report Date: June 23, 2025

Product Description: Via Nano is built on an iOS platform that serves as an electronic speech generating device that augments communication for an individual with speech/language impairment. The device and its language programs give the user the power to initiate conversation, seek information, state opinions, and share feelings. The display has a 6-inch screen. Via devices offer the choice of three communication applications: LAMP Words for Life®, TouchChat®, or Dialogue® AAC. The device can be hand-held or placed flat on the surface. The user can access the device by using the touchscreen or an AeroSwitch wireless remote switch. The lugs on the ends of the device allow you to attach a wrist strap or shoulder strap which are provided with the device.

Contact Information: Phone: (800) 262-1984 / E-mail Address: info@prc-saltillo.com

Web site Address: https://www.prc-saltillo.com/co-branded-products

Notes: Device Version Via Nano 6.1

Evaluation Methods Used: Manual Review, Testing is based on general product knowledge

[&]quot;Voluntary Product Accessibility Template" and "VPAT" are registered service marks of the Information Technology Industry Council (ITI)

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.0	Level A (Yes / No)
	Level AA (Yes / No)
	Level AAA (Yes / No)
Web Content Accessibility Guidelines 2.1	Level A (Yes / No)
	Level AA (Yes / No)
	Level AAA (Yes / No)
Web Content Accessibility Guidelines 2.2	Level A (Yes / No)
	Level AA (Yes / No)
	Level AAA (Yes / No)
Revised Section 508 standards published January 18, 2017 and corrected January 22, 2018	(Yes / No)
EN 301 549 Accessibility requirements for ICT products and services - V3.1.1 (2019-11) AND EN 301 549 Accessibility requirements for ICT products and services - V3.2.1 (2021-03)	(Yes / No)

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports**: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- Partially Supports: Some functionality of the product does not meet the criterion.
- **Does Not Support**: The majority of product functionality does not meet the criterion.
- Not Applicable: The criterion is not relevant to the product.
- Not Evaluated: The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

WCAG 2.0 Report

Tables 1 and 2 also document conformance with Revised Section 508:

- Chapter 5 501.1 Scope, 504.2 Content Creation or Editing
- Chapter 6 602.3 Electronic Support Documentation

Note: When reporting on conformance with the WCAG 2.0 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the <a href="https://www.wcashedu.com/wcashed

Table 1: Success Criteria, Level A

Criteria	Conformance Level	Remarks and Explanations

Revised Section 508 Report

Notes:

Chapter 3: Functional Performance Criteria (FPC)

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Partially Supports	Without other supports, vision is required to operate the touchscreen to activate onscreen elements and menus on the device Auditory Prompting and Auditory Fishing are provided for auditory cue when scanning or using direct selection with the touchscreen. The device supports users with low vision; the device is not designed for users without any vision.
302.2 With Limited Vision	Partially Supports	Some functionality is supported for limited vision by enlarging font size, text color and background colors in the main text box (via the device settings), to better accommodate high contrast viewing and color blindness for persons with limited vision.
302.3 Without Perception of Color	Supports	Device supports operation without Perception of color.
302.4 Without Hearing	Supports	Device supports operation without hearing.
302.5 With Limited Hearing	Supports	Device supports operation with limited hearing.
302.6 Without Speech	Supports	Device supports operation without speech.
302.7 With Limited Manipulation	Supports	Device supports operation with limited manipulation by use of the on-screen

Criteria	Conformance Level	Remarks and Explanations
		elements and menus on the Device. Also,
		by way of one or more optional
		attachment switch controller(s).
202 9 With Limited Booch and Strongth	Cupports	Device supports operation with limited
302.8 With Limited Reach and Strength	Supports	reach and strength.
302.9 With Limited Language, Cognitive, and Learning Abilities	Supports	Device supports operation with limited
502.9 With Limited Language, Cognitive, and Learning Abilities	Supports	language, cognitive, and learning abilities.

Chapter 4: <u>Hardware</u>

Criteria	Conformance Level	Remarks and Explanations
402 Closed Functionality	Heading cell – no response required	Heading cell – no response required
402.1 General	Heading cell – no response required	Heading cell – no response required
402.2 Speech-Output Enabled	Heading cell – no response required	Heading cell – no response required
402.2.1 Information Displayed On-Screen	Supports	Information is clearly displayed on-screen.
402.2.2 Transactional Outputs	Supports	Although there is no transactional Outputs associated with this device by default as expressed by the VPAT guidelines, this criterion is considered supported.
402.2.3 Speech Delivery Type and Coordination	Supports	Device supports Speech Delivery Type and Coordination.
402.2.4 User Control	Supports	Device supports user control via touchscreen to activate on-screen elements and menus. Also, by way of one or more optional attachment switch controller(s).
402.2.5 Braille Instructions	Does Not Support	This device does not provide braille instructions.
402.3 Volume	Heading cell – no response required	Heading cell – no response required
402.3.1 Private Listening	Supports	Device Supports Private Listening.
402.3.2 Non-private Listening	Supports	Device supports Non-private Listening.

Criteria	Conformance Level	Remarks and Explanations
402.4 Characters on Display Screens	Supports	Device supports characters on the display screen as it relates to volume control.
402.5 Characters on Variable Message Signs	Not Applicable	Device is not an Aisle Seats, Designated Aisle Seats. Aisles, Parking, Passenger Loading zones, Assembly areas, Checkout aisles.
403 Biometrics	Heading cell – no response required	Heading cell – no response required
403.1 General	Not Applicable	Device does not utilize biometrics.
404 Preservation of Information Provided for Accessibility	Heading cell – no response required	Heading cell – no response required
404.1 General	Supports	Device supports preservation of Information transmitted.
405 Privacy	Heading cell – no response required	Heading cell – no response required
405.1 General	Supports	Device supports the same degree of privacy of input and output.
406 Standard Connections	Heading cell – no response required	Heading cell – no response required
406.1 General	Supports	Device supports at least one of each type of industry standard non-proprietary format connections.
407 Operable Parts	Heading cell – no response required	Heading cell – no response required
407.2 Contrast	Supports	Device supports contrast control.
407.3 Input Controls	Heading cell – no response required	Heading cell – no response required
407.3.1 Tactilely Discernible	Supports	Device supports tactile discernibility with "Keyguard" or "TouchGuide". Various settings are available to prevent accidental activations including an option to activate upon release (as opposed to activating on touch) as well as dwell and acceptance time setting to accommodate those that can't come off the keys as easily as others with use of applicable software.
407.3.2 Alphabetic Keys	Supports	Device has many keyboards and numeric keypad options in various configurations

Criteria	Conformance Level	Remarks and Explanations
		as well as access setting options with use of applicable software.
407.3.3 Numeric Keys	Supports	Device has many keyboards and numeric keypad options in various configurations as well as access setting options with use of applicable software.
407.4 Key Repeat	Supports	Device supports repeated button input. The delay before the key repeat feature is activated can be fixed at, or adjustable to, 2 seconds minimum with use of applicable software.
407.5 Timed Response	Does Not Support	The device hardware does not have applicable timed response.
407.6 Operation	Supports	Device supports at least one mode of operation operable with one hand and does not require tight grasping, pinching, or twisting of the wrist.
407.7 Tickets, Fare Cards, and Keycards	Not Applicable	Device is not a ticket, fare card, or keycard.
407.8 Reach Height and Depth	Heading cell – no response required	Heading cell – no response required
407.8.1 Vertical Reference Plane	Supports	This personal ICT device can be mounted on a vertical plane for side reach in a customizable position to support user requirements.
407.8.1.1 Vertical Plane for Side Reach	Supports	This personal ICT device can be mounted on a vertical plane for side reach in a customizable position to support user requirements.
407.8.1.2 Vertical Plane for Forward Reach	Supports	This personal ICT device can be mounted on a vertical plane for forward reach in a customizable position to support user requirements.
407.8.2 Side Reach	Supports	This personal ICT device can be mounted

on a plane for side reach in a customizable position to support user requirements. This personal ICT device can be mounted with unobstructed side reach in a customizable position to support user requirements. This personal ICT device can be mounted with unobstructed side reach in a customizable position to support user requirements. customizable position to support user
requirements.
This personal ICT device can be mounted with obstructed forward reach in a
107.8.3.2 Obstructed Forward Reach
customizable position to support user requirements.
This portable personal ICT device can be
107.8.3.2.1 Operable Part Height for ICT with Obstructed Forward Reach Supports mounted in any customizable position to
support user access requirements.
This portable personal ICT device can be
107.8.3.2.2 Knee and Toe Space under ICT with Obstructed Forward Supports
Reach support user access requirements.
Heading cell – no response required Heading cell – no response required
This portable personal ICT device can be
108.2 Visibility Supports mounted in any customizable position to
support user visibility of display screen.
108.3 Flashing Supports Device screen does not provide light

Criteria	Conformance Level	Remarks and Explanations
		flashes, with no more than three flashes in any one-second period.
409 Status Indicators	Heading cell – no response required	Heading cell – no response required
409.1 General	Supports	Device status indicators are discernible visually and by sound.
410 Color Coding	Heading cell – no response required	Heading cell – no response required
410.1 General	Supports	Device provides, color coding and also provides other means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.
411 Audible Signals	Heading cell – no response required	Heading cell – no response required
411.1 General	Supports	Device provides audible signals or cues and also provides visual means of conveying information, indicating an action, or prompting a response.
412 ICT with Two-Way Voice Communication	Heading cell – no response required	Heading cell – no response required
412.2 Volume Gain	Heading cell – no response required	Heading cell – no response required
412.2.1 Volume Gain for Wireline Telephones	Not Applicable	Device is not a two-way voice communications piece of equipment.
412.2.2 Volume Gain for Non-Wireline ICT	Not Applicable	Device is not a two-way voice communications piece of equipment.
412.3 Interference Reduction and Magnetic Coupling	Heading cell – no response required	Heading cell – no response required
412.3.1 Wireless Handsets	Not Applicable	Device is not a two-way voice communications piece of equipment
412.3.2 Wireline Handsets	Not Applicable	Device is not a two-way voice communications piece of equipment
412.4 Digital Encoding of Speech	Not Applicable	Device is not a two-way voice communications piece of equipment
412.5 Real-Time Text Functionality	Reserved for future	Reserved for future
412.6 Caller ID	Not Applicable	Device is not a two-way voice communications piece of equipment

Criteria	Conformance Level	Remarks and Explanations
412.7 Video Communication	Not Applicable	Device is not a two-way voice communications piece of equipment but can support video communication while utilizing applicable software.
412.8 Legacy TTY Support	Heading cell – no response required	Heading cell – no response required
412.8.1 TTY Connectability	Not Applicable	Device is not a two-way voice communications piece of equipment
412.8.2 Voice and Hearing Carry Over	Not Applicable	Device is not a two-way voice communications piece of equipment
412.8.3 Signal Compatibility	Not Applicable	Device is not a two-way voice communications piece of equipment
412.8.4 Voice Mail and Other Messaging Systems	Not Applicable	Device is not a two-way voice communications piece of equipment
413 Closed Caption Processing Technologies	Heading cell – no response required	Heading cell – no response required
413.1.1 Decoding and Display of Closed Captions	Not Applicable	Device does not process video with synchronized audio or is a closed caption processing technology.
413.1.2 Pass-Through of Closed Caption Data	Not Applicable	Device does not process video with synchronized audio or is a closed caption processing technology.
414 Audio Description Processing Technologies	Heading cell – no response required	Heading cell – no response required
414.1.1 Digital Television Tuners	Not Applicable	Device does not digital television tuner or is an audio description processing technology.
414.1.2 Other ICT	Not Applicable	Device does not process video with synchronized audio or is an audio description processing technology.
415 User Controls for Captions and Audio Descriptions	Heading cell – no response required	Heading cell – no response required
415.1.1 Caption Controls	Not Applicable	Caption controls are not applicable to this device.
415.1.2 Audio Description Controls	Not Applicable	Audio Description controls are not applicable to this device.

Chapter 5: Software

Criteria	Conformance Level	Remarks and Explanations
501.1 Scope – Incorporation of WCAG 2.0 AA	See WCAG 2.x section	See information in WCAG 2.x section
502 Interoperability with Assistive Technology	Heading cell – no response required	Heading cell – no response required
502.2.1 User Control of Accessibility Features	Supports	Device supports User Control of Accessibility Features.
502.2.2 No Disruption of Accessibility Features	Supports	Device supports No Disruption of Accessibility Features.
502.3 Accessibility Services	Heading cell – no response required	Heading cell – no response required
502.3.1 Object Information	Not Applicable	Not Applicable
502.3.2 Modification of Object Information	Supports	Device States and properties that can be set by the user are capable of being set programmatically, including through assistive technology.
502.3.3 Row, Column, and Headers	Not Applicable	Device does not display data tables.
502.3.4 Values	Supports	Setting value(s), and any set or range of allowable values associated with an object are programmatically determinable.
502.3.5 Modification of Values	Supports	Values can be set by the user and are capable of being set programmatically, including through assistive technology.
502.3.6 Label Relationships	Supports	Relationships that a component has as a label for another component, or of being labeled by another component, are programmatically determinable.
502.3.7 Hierarchical Relationships	Supports	Hierarchical (parent-child) relationship that a component has as a container for, or being contained by, another component is programmatically determinable.
502.3.8 Text	Supports	The content of text objects, text

Criteria	Conformance Level	Remarks and Explanations
		attributes, and the boundary of text rendered to the screen, are programmatically determinable.
502.3.9 Modification of Text	Supports	Text that can be set by the user are capable of being set programmatically, including through assistive technology.
502.3.10 List of Actions	Supports	A list of all actions that can be executed on An object is programmatically determinable.
502.3.11 Actions on Objects	Supports	Device allows assistive technology to programmatically execute available actions on objects.
502.3.12 Focus Cursor	Supports	Device provides information and mechanisms necessary to track focus, text insertion point, and selection attributes of user interface components.
502.3.13 Modification of Focus Cursor	Supports	Text insertion point, and selection attributes that can be set by the user are capable of being set programmatically, including through the use of assistive technology.
502.3.14 Event Notification	Supports	Notification of events relevant to user interactions, including but not limited to, changes in the component's state(s), value, name, description, or boundary, are available to assistive technology.
502.4 Platform Accessibility Features	Supports	Device supports platform accessibility features.
503 Applications	Heading cell – no response required	Heading cell – no response required
503.2 User Preferences	Supports	Device permit user preferences from platform settings for color, contrast, font type, font size.
503.3 Alternative User Interfaces	Supports	Alternative User Interfaces.

Criteria	Conformance Level	Remarks and Explanations
503.4 User Controls for Captions and Audio Description	Heading cell – no response required	Heading cell – no response required
503.4.1 Caption Controls	Not Applicable	Caption controls are not applicable to this device.
503.4.2 Audio Description Controls	Not Applicable	Audio Description controls are not applicable to this device.
504 Authoring Tools	Heading cell – no response required	Heading cell – no response required
504.2 Content Creation or Editing (if not authoring tool, enter "not applicable")	See WCAG 2.x section	See information in WCAG 2.x section
504.2.1 Preservation of Information Provided for Accessibility in Format	Not Applicable	Device is not an authoring tool.
Conversion		Device is not an authorning tool.
504.2.2 PDF Export	Not Applicable	Device is not an authoring tool.
504.3 Prompts	Not Applicable	Device is not an authoring tool.
504.4 Templates	Not Applicable	Device is not an authoring tool.

Chapter 6: Support Documentation and Services

Criteria	Conformance Level	Remarks and Explanations
601.1 Scope	Heading cell – no response required	Heading cell – no response required
602 Support Documentation	Heading cell – no response required	Heading cell – no response required
602.2 Accessibility and Compatibility Features	Supports	Device supports Accessibility and Compatibility Features.
602.3 Electronic Support Documentation	See WCAG 2.x section	See information in WCAG 2.x section
602.4 Alternate Formats for Non-Electronic Support Documentation	Supports	Device supports Alternate Formats for Non-Electronic Support Documentation
603 Support Services	Heading cell – no response required	Heading cell – no response required
603.2 Information on Accessibility and Compatibility Features	Supports	Device supports Information on Accessibility and Compatibility Features.
603.3 Accommodation of Communication Needs	Supports	Device supports Accommodation of Communication Needs.
